## A global business

With over 10,000 employees and annual production of some 8 million pump units a year, Grundfos is one of the world's leading pump manufacturers. More than 50 companies right across all the continents of the globe help to bring pumps to every corner of the world, from supplying drinking water to Antarctic expeditions, irrigation of Dutch tulips, groundwater monitoring beneath waste heaps in Germany, to air-conditioning in Egyptian hotels.

### Efficient, sustainable products

Grundfos is constantly striving to make its products more userfriendly and reliable – and also energy saving and efficient, so that both users and the environment benefit from their improvements.

Grundfos pumps are equipped with ultramodern electronics, allowing them to regulate their output according to current needs. This not only ensures convenience for the user, but also saves a great deal of energy.

### Research and development

In order to maintain its leading position, Grundfos constantly places a great deal of emphasis on customer-oriented research and development; customers are

consulted when new products are developed or when established products are improved.

Research and development make use of the latest technology within the pump industry, collaborating with universities and higher education institutions in search of new and better solutions for the design and function of the products.

### Corporate values

The Grundfos Group is based on values such as sustainability, openness, trustworthiness, responsibility, and also on partnership with clients, suppliers and the whole of society around us, with a focus on humanity that concerns our own employees as well as the many millions who benefit from water that is procured, utilised and removed as wastewater with the help of Grundfos pumps.

## Jay Pumps Pvt. Ltd.

"Jay House", Stadium Circle, Navrangpura, Ahmedabad - 380 009, India.  
 Phone : (079) 2656 1054 - 55 Fax : (079) 2644 3850  
 E-mail : info@jaypumps.com  
 Website : www.jaypumps.com

## Pumps for all purposes

No matter for which purpose an efficient and energy-saving pump solution is required, Grundfos offers a high-quality solution.

### Heating and hot water service systems

Circulator pumps for circulation of hot water in central and district heating systems and circulation in domestic hot water service systems.

### Cooling and air-conditioning systems

Circulator pumps for circulation of cold water and other liquids in cooling and air-conditioning systems.

### Industrial applications

A wide range of multistage pumps for the transfer of water, cooling lubricants and other liquids in industrial and process systems.

### Pressure boosting and liquid transfer

Vertical and horizontal, centrifugal pumps and pressure boosting systems for liquid transfer and boosting of hot and cold water.

### Groundwater supply

Submersible pumps for groundwater supply, irrigation and groundwater lowering.

## Jay Pumps Pvt. Ltd.

"Jay House", Stadium Circle, Navrangpura, Ahmedabad - 380 009, India.  
Phone : (079) 2656 1054 - 55 Fax : (079) 2644 3850  
E-mail : [info@jaypumps.com](mailto:info@jaypumps.com)  
Website : [www.jaypumps.com](http://www.jaypumps.com)

**Domestic water supply**

Submersible pumps, jet pumps, multi-stage centrifugal pumps and compact systems for water supply in homes, gardens and hobby applications.

**Sewage and wastewater**

Drainage, effluent and sewage pumps for a wide range of applications in building services as well as transfer of raw sewage in municipal sewage systems.

**Environmental applications**

Purpose-built submersible pumps for remedial pumping of contaminated groundwater and for groundwater sampling for water quality analyses.

**Dosing**

Dosing pumps for wastewater treatment systems, swimming pools and industry.

**Renewable energy systems**

Renewable-energy based water supply systems suitable for remote locations not connected to the electricity supply grid.

**Jay Pumps Pvt. Ltd.**
